

USE WATER WISELY

Tasmanian Irrigation fully supports TasWater's call for all people to conserve water at home and at work.

Tasmanian Irrigation Chief Executive Officer Andrew Kneebone today encouraged people to re-think how and when they use water, and to ensure they respect all current and future water restrictions.

"Tasmanian Irrigation and TasWater have worked collaboratively for many years to best manage the available South East Tasmanian water resource for all users," Mr Kneebone said.

"Every drop counts so we urge all Tasmanians to think before they turn on the tap."
